(+44) (0) 7422538781 ◊ zhenhao.li@epicgames.com ◊ [zhenhaoli.net](http://zhenhaoli.net) ◊ Github: [Nickeilf](https://github.com/Nickeilf)

## EMPLOYMENT

---

**Research Engineer**  
*in Content Moderation*

Epic Games  
Jan 2023 - Now

- Research and development in content moderation such as text toxicity detection to support Epic Games ecosystem security.

**Research Engineer**  
*in Toxicity Detection*

Contex.ai (now acquired by Epic Games)  
Dec 2021 - Jan 2023

- Responsible for developing and improving the *text models* in toxicity detection. Built production-level single-task and multi-task text models, which outperform competitor products by over 0.15 F1 score.
- Implemented a novel *adversarial multi-task framework* to boost the performance on covert examples. Developed the initial framework of *conversational models*.

**Research Assistant**  
*in Multimodal Machine Learning*

Imperial College London  
June 2020 - Jan 2022

- Built multimodal neural machine translation models robust to noise. Applied adversarial training with synthetic noisy data and improved performance by over 2 BLEU scores under noisy settings.

## EDUCATION

---

**Imperial College London, UK**

October 2019 - Present

Supervisors: Prof. Lucia Specia, Dr. Marek Rei

Final year PhD candidate in Natural Language Processing

**Imperial College London, UK**

September 2018 - September 2019

Supervisor: Prof. Lucia Specia

MSc in Computing (Artificial Intelligence)

degree: Distinction

**Nanjing University, China**

September 2014 - June 2018

Supervisor: Prof. Jidong Ge

BEng in Software Engineering

Overall Percentage: 87.8

## OPEN SOURCE PROJECTS AND OTHER SERVICE

---

**Core Contributor & Reviewer**

GEM-benchmark/NL-Augmenter

- Acted as one of the framework organizers of [NL-Augmenter](#) – a repo for data augmentation in NLP
- Contributed to the core of data filtering and evaluation components, reviewed 30+ augmentation PRs

**Workshop Co-organizer**

Sixth Conference on Machine Translation (WMT21)

*in Quality Estimation (QE) Shared Task*

Dec 2020 - Jul 2021

- Acted as the co-organizer of WMT21 Quality Estimation Task 3
- Built a human annotation platform based on MT-EQuAl, which is used for the dataset collection

**Workshop Co-organizer**

Fifth Conference on Machine Translation (WMT20)

*in Robustness Shared Task*

Apr 2020 - Dec 2020

- Acted as the co-organizer of WMT20 Robustness Task and assisted in a new dataset
- Performed analysis on 23 system submissions from 9 teams, and gave a presentation on EMNLP 2020

## PATENT

---

Jidong Ge, Chuanyi Li, **Zhenhao Li**, MiaoMiao Lei, Linxia Yao, Xiaoyu Zhou, Bin Luo, "A Word Segmentation Method on Judicial Document Based on PageRank and Information Entropy.", CN Patent, Application Number:201810534689.4, 30 May 2018

Lucia Specia, Marina Fomicheva, Ozan Caglayan, **Zhenhao Li**, "Multi-task neural network for toxicity detection", US Patent, Patent Number: US-20230419117-A1, 28 Dec 2023

## AWARDS

---

Second Place in Sentence-level Critical Error Detection of WMT21 QE shared task	Jul 2021
First Place in the English-Portuguese track of Duolingo STAPLE shared task	Apr 2020
Honorable Mention Prize in Mathematical Contest in Modeling	Apr 2017
Excellent Prize in the 12th Citi Financial Innovation Application Competition	Nov 2016
The People's Scholarship in China	2015, 2016, 2017

## SKILL

---

**Programming language:** Python (expert), Java, Javascript, HTML, SQL

**ML framework:** Pytorch (expert), Huggingface (expert), Scikit-learn (expert), OpenNMT, Fairseq
